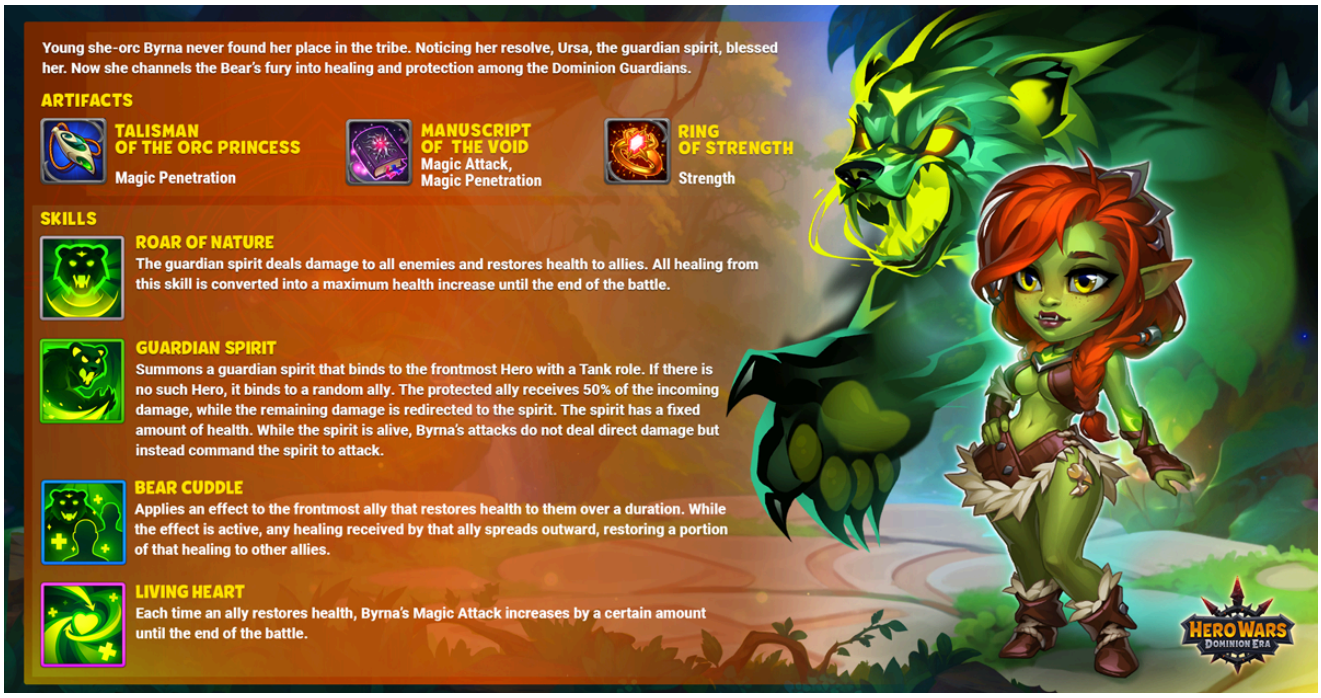
Learn More About New Hero!

🐻 Have you ever seen an orc choose mercy over rage? Meet Byrna, a young shaman who never fit into her tribe. While others embraced brutality, she chose compassion. Blessed by the Bear Spirit Ursa, she now stands with the Guardians.

Calm and resolute, Byrna walks her own path. The Spirit of the Bear answers her call, shielding allies and striking when patience runs out. The longer the battle lasts, the more her quiet strength reveals itself.



Young she-orc Byrna never found her place in the tribe. Noticing her resolve, Ursa, the guardian spirit, blessed her. Now she channels the Bear's fury into healing and protection among the Dominion Guardians.

RING OF STRENGTH
Strength
SKILLS
ROAR OF NATURE
The guardian spirit deals damage to all enemies and restores health to allies. All healing from this skill is converted into a maximum health increase until the end of the battle.
GUARDIAN SPIRIT
Summons a guardian spirit that binds to the frontmost Hero with a Tank role. If there is no such Hero, it binds to a random ally. The protected ally receives 50% of the incoming damage, while the remaining damage is redirected to the spirit. The spirit has a fixed amount of health. While the spirit is alive, Byrna's attacks do not deal direct damage but instead command the spirit to attack.
BEAR CUDDLE
Applies an effect to the frontmost ally that restores health to them over a duration. While the effect is active, any healing received by that ally spreads outward, restoring a portion of that healing to other allies.
LIVING HEART
Each time an ally restores health, Byrna's Magic Attack increases by a certain amount until the end of the battle.
